**THIS IS ONE OF DESIGN BASICS'** most versatile homes for a wide range of families—from newlyweds to empty nesters, it seems to call to all. The front den can be redone in numerous ways—only you know which will work for your family. Put on your thinking cap and let's get started!

The two-story great room really opens up both the dining areas and the upper level, a seemingly effortless flow that everyone can appreciate. You will notice that the bumped out area affords you the opportunity to have countless windows, giving you a spectacular view of your backyard. We know there is never enough sunshine to be let in to make a house cheerful and welcoming. Enjoy !

The upper level has two bedrooms and another bath tucked away. We think that it is perfect for guests, growing children or visiting relatives. Maybe not all at once, but we'll let you decide how many you can handle.

So take a walk around this comfortable home, see how nicely that first floor owners' suite suits your lifestyle and take the plunge. We know you can't wait to be *Home at Last*.

"The light is what guides you home. The warmth is what keeps you there."
