

If you are looking for
an open floor plan

with flexible rooms that will still fit on a
narrow lot then look no further, you have
found it!

This home finishes up with great curb appeal
and a floor plan that works. The extra
bedrooms flank the front entry so they are
perfect for converting to that den or guest
room as well as opening with french doors as a
home office. The bathroom is conveniently
located right there, so your guests do not have
to enter into the rest of your home.

The angled kitchen island faces not only your Great
Room, but the outdoors as well. Let's not forget the
walk-in pantry. A private Owner's Suite has a large
walk-in closet and well lit bath area, complete with its
own linen closet. We haven't forgotten to add a bench
area to your mudroom/laundry area, complete with a
pocket door for those days where you don't quite finish
all the housework.

No one else needs to know because you can do
whatever you want when you are... *Home at Last.*
